

Hi [Hiring Manager]

Thank you for considering my Portfolio. As you go through my portfolio, I hope you will see that I am a strong candidate for the job based on my skills and experience.

My portfolio showcases the following:

1. Javascript: I have about a year of Experience in Javascript, which is essential for the job. I have worked on several projects and have received positive feedback.
2. CSS: I am proficient in CSS and have worked on several projects. I have experience in responsive Web-design, and I am confident in my abilities to perform in this position.
3. HTML: I also have expertise in HTML, which is an added advantage for the Job. My knowledge and hands-on experience in Visual Studio Code would be beneficial for your organization.

In addition to my technical skills, I am a diligent worker who is self-motivated and proactive. I enjoy working on problem-solving tasks .

I have also other several experiences (Python,c#,c++,php,ts,git,..), which are not my main focus right now, but i went through the basics and a little further on each which will help me to get back into it if needed, im also tracking my progresses.

Thank you again for considering my portfolio for the position. Please feel free to contact me if you have any further questions or if I can provide any additional information.

Sincerely,
Hasan Yildirim
